

Q: Are there discounts for having more boxes?

A: Since Stash's goal is to offer convenience, we have given users the lowest price possible for the box and storage. However, we are offering a price break to customers who pre-pay for multiple deliveries per month. View plan pricing [here](#) for further details.

Q: How do pickup and delivery work?

A: We'll do what you need us to. If you'd like to leave your box with your doorman for pickup that's great - we can grab it there. If you want to sign for the box personally, we'll do that too. You choose where and how you want your box picked up and delivered when you need to get your box back, or send it to us.
