

Q: Do you have enough storage space to expand the business?

A: We have space to continue to grow! Through our partnership with self-storage companies, as well as, our partnerships with courier services, we have ample opportunity to grow throughout Chicago and beyond.

# Q: How will your partnerships change in other cities?

A: Self-Storage companies and courier services are in every city in the country, especially populated cities. As Stash grows, these partnerships will change very little. Once Stash reaches significant scale, Stash *could* invest in warehouses and trucks to lower the price for the user and also to better service less-populated areas.
